EXPERIENCE

-  **IMMENTIA**
- Technical Project ManagerMay 2024– Present
- Improved delivery efficiency by 10% through implementation of standardized governance, reporting frameworks, and workflow optimization practices.
 - Managed cross-functional dependencies across engineering, QA, product, and business teams, accelerating release timelines by up to two weeks.
 - Established program-level risk, issue, and change management processes that reduced stakeholder escalations and improved delivery predictability.
 - Provided executive-level reporting, progress visibility, and performance tracking across multiple active work streams.
 - Facilitated stakeholder alignment sessions, ensuring priorities, scope, and resource allocation remained aligned with business objectives.
-  **TECH LOGANS**
- Technical Project Manager / Program LeadSep 2022 – May 2024
- Oversaw a portfolio of client-facing technology initiatives, balancing delivery priorities, resource allocation, and business goals across multiple concurrent projects.
 - Accelerated task completion by 15% through governance improvements, structured requirements reviews, and effective change control practices.
 - Reduced delivery disruptions by 20% through proactive risk identification, dependency management, and contingency planning.
 - Coordinated cross-functional teams across parallel work streams, improving milestone achievement and delivery consistency.
 - Established reporting mechanisms that increased stakeholder visibility and strengthened decision-making throughout the project lifecycle.
-  **SELF EMPLOYED**
- Full Stack Web DeveloperOct 2021 – Oct 2023
- Delivered multiple web application projects for clients while managing scope, timelines, stakeholder expectations, and quality standards.
 - Built and deployed responsive web applications that achieved strong user satisfaction and repeat business opportunities.
 - Collaborated directly with clients to define requirements, prioritize deliverables, and ensure successful project outcomes.
 - Managed project milestones, demonstrations, and acceptance processes to maintain alignment with client objectives.

- Managed multiple educational programs and operational initiatives involving faculty, students, administration, and external stakeholders.
- Directed annual planning, scheduling, resource allocation, and operational execution for institution-wide academic activities.
- Led organizational improvement initiatives that enhanced faculty productivity and increased student engagement.
- Developed performance monitoring and reporting mechanisms that supported leadership decision-making and program effectiveness.
- Coordinated stakeholders across departments to ensure alignment of objectives, resources, and program outcomes.
- Successfully resolved operational and stakeholder challenges, contributing to improved student satisfaction and institutional performance.
